

Hydraulic Thumb 13,200 – 17,600 lbs (TDT8)

Description

Hydraulic Thumb 13,200 lbs – 17,600 lbs (TDT8)

The TocDem Hydraulic Thumb 13,200 lbs – 17,600 lbs (TDT8) works with mid-size excavators across commercial construction, utility work, demolition, forestry, recycling and material handling applications.

The TDT8 helps operators securely grip, lift, carry and position concrete, rocks, timber, pipes, scrap metal and demolition debris. As a result, operators gain greater control when handling materials on the jobsite. In addition, the TDT8 helps improve productivity when loading trucks, sorting materials or placing utility pipe.

The TDT8 combines high-strength, wear-resistant steel with premium hydraulic components. Therefore, it can handle demanding work environments while providing reliable operation and long service life. In addition, heavy-duty pivot assemblies, reinforced tine construction and precise geometry support smooth movement and secure clamping.

What We Offer at TocDem

- 3-Year Warranty
- Technical Support Available
- Dealer Inquiries Welcome
- Professional welding and fitting required
- Typical delivery: 2 to 4 weeks

Every TocDem Hydraulic Thumb includes the following components:

- Hydraulic Thumb
- Base Plate
- Hydraulic Cylinder
- Hydraulic Hoses

For proper installation and safe operation, use professional welding and fitting. As a result, the attachment can deliver reliable long-term performance.

TocDem TDT8 Hydraulic Thumb Specification

Specification	Details
Model	TDT8
Suitable Excavator	13,200 lbs – 17,600 lbs
Thumb Width	10.83? (275 mm)
Thumb Length	47.24? (1,200 mm)
Tine Plate Thickness	0.79? (20 mm)
Warranty	3 Years

Additional Highlights of Our TDT8 Hydraulic Thumb Include:

- Fits excavators from 13,200 lbs to 17,600 lbs.
- Heavy-duty, high-strength steel construction.
- Strong gripping force for better material handling.
- Precise geometry for secure material retention.
- Heavy-duty pivot assemblies for reliable operation.
- Low-maintenance design with greasable pivot points.
- Premium hydraulic components for long service life.
- Supports fast, straightforward installation.
- Suitable for construction, demolition, utilities, forestry, recycling and landscaping.
- Built for demanding work environments.

All prices are subject to applicable taxes and delivery.

Why Choose TocDem Attachments?

TocDem Attachments understands the importance of quality, reliability and long-term product support. Therefore, every TocDem Hydraulic Thumb focuses on reliable operation and practical long-term use.

Heavy-duty construction, premium components and precise engineering help reduce maintenance needs. In addition, these features support reliable performance in demanding jobsite conditions.

The TDT8 supports regular use across construction, demolition, utility and material handling applications. As a result, contractors gain a practical attachment for everyday material handling work.

Built for Mid-Size Excavator Performance

Page 3

The TDT8 gives contractors added control when handling heavier or more difficult materials. For example, its larger gripping capacity suits commercial construction,

municipal utility work, land clearing and demolition where secure material handling is important.

The TDT8 works alongside the excavator bucket to hold materials securely. At the same time, its design helps maintain visibility and digging performance.

The balanced design helps support lifting while limiting extra machine load. As a result, operators can work with greater control throughout the day.

Engineered for Long-Term Performance

Downtime costs money, so TocDem focuses on reliability, easy service and long-term value.

Heavy-duty construction, premium components and precise engineering help reduce maintenance needs. In addition, these features support reliable performance in demanding work conditions.

The TDT8 supports regular use across construction, demolition, utility and material handling applications. Therefore, contractors gain dependable material handling capability for everyday jobsite work.

Designed for Straightforward Installation

TocDem engineers every Hydraulic Thumb for efficient installation. As a result, contractors can reduce machine downtime and return the excavator to work quickly.

Each package includes the hydraulic thumb, base plate, hydraulic cylinder and hydraulic hoses. However, use professional welding and fitting to help ensure proper installation and safe operation.

Warranty

Every TocDem Hydraulic Thumb comes with a 3-Year Warranty. Therefore, contractors gain added confidence in its long-term performance.

Delivery

Typical delivery is 2 to 4 weeks, depending on model availability and shipping destination.

**** Due to ongoing development, specifications may change at any time.**

Only trained, qualified personnel should install and operate these tools. Always keep a valid risk assessment & method statement in place before use. In addition, equip the excavator powering this item with the appropriate safety equipment and guarding.
