

Hydraulic Thumb 33,100 – 48,500 lbs (TDT22)

Description

Hydraulic Thumb 33,100 lbs – 48,500 lbs (TDT22)

The TocDem Hydraulic Thumb 33,100 lbs – 48,500 lbs (TDT22) works with larger excavators across construction, demolition, infrastructure, utility, forestry and recycling applications. It gives operators strong gripping power and precise control. As a result, operators can safely lift, carry and position heavy materials while improving jobsite productivity.

For example, the TDT22 can handle reinforced concrete, structural steel, large timber, utility pipe, rock, scrap metal and demolition debris. It works with the excavator bucket to hold materials securely. In addition, its precise geometry supports smooth and reliable movement throughout the thumb's full working range.

The TDT22 combines heavy-duty, high-strength steel with premium hydraulic components. Therefore, it can handle demanding work environments while supporting reliable performance and long service life.

What We Offer at TocDem

- 3-Year Warranty
- Technical Support Available
- Dealer Inquiries Welcome
- Professional welding and fitting required
- Typical delivery: 2 to 4 weeks

Every TocDem Hydraulic Thumb includes the following components:

- Hydraulic Thumb
- Base Plate
- Hydraulic Cylinder
- Hydraulic Hoses

Professional welding and fitting help ensure correct installation and safe operation. In addition, proper fitting supports reliable long-term performance.

TocDem TDT22 Hydraulic Thumb Specification

Specification	Details
Model	TDT22
Suitable Excavator	33,100 lbs – 48,500 lbs
Thumb Width	14.8? (375 mm)
Thumb Length	63.0? (1,600 mm)
Tine Plate Thickness	1.38? (35 mm)
Warranty	3 Years

Additional Highlights of Our TDT22 Hydraulic Thumb Include:

- Fits excavators from 33,100 lbs to 48,500 lbs.
- Heavy-duty, high-strength steel construction.
- Strong gripping force for heavy material handling.
- Precise geometry for secure material retention.
- Reinforced heavy-duty pivot assemblies.
- Low-maintenance design with greasable pivot points.
- Premium hydraulic components for reliable long-term performance.
- Supports straightforward installation.
- Suitable for construction, demolition, utilities, forestry, recycling and infrastructure projects.
- Handles demanding jobsite conditions.

All prices are subject to applicable taxes and delivery.

Why Choose TocDem Attachments?

TocDem Attachments understands the importance of quality, reliability and long-term product support. Therefore, TocDem builds every Hydraulic Thumb with reliable operation and long-term use in mind.

Heavy-duty construction, reinforced pivot assemblies and premium hydraulic components support reliable gripping performance. In addition, these features help the TDT22 handle challenging work conditions.

The TDT22 gives contractors dependable performance for daily work. As a result, it helps reduce downtime and maintenance needs while supporting long service life.

Built for Heavy Commercial Applications

Page 3

The TDT22 gives contractors the strength and control needed for large construction, infrastructure and demolition projects. In addition, its larger gripping capacity helps

operators handle oversized materials during loading, sorting, site clearing and material placement.

For example, operators can use the TDT22 to move reinforced concrete, structural steel, utility pipe, large boulders, timber and demolition debris. As a result, they gain better control while reducing manual handling on busy jobsites.

Engineered for Long-Term Performance

Every TocDem Hydraulic Thumb focuses on reliable operation and long-term use. In addition, heavy-duty construction, reinforced pivot assemblies and premium hydraulic components work together to support dependable gripping performance.

The TDT22 serves contractors who rely on their equipment every day. Therefore, its heavy-duty design helps reduce downtime and maintenance needs while supporting long service life.

Designed for Straightforward Installation

TocDem engineers every Hydraulic Thumb for efficient installation. As a result, contractors can reduce machine downtime and return the excavator to work quickly.

Each hydraulic thumb includes the hydraulic thumb, base plate, hydraulic cylinder and hydraulic hoses. However, professional welding and fitting help ensure correct installation, safe operation and reliable long-term performance.

Warranty

Every TocDem Hydraulic Thumb comes with a 3-Year Warranty. Therefore, contractors gain added confidence in its long-term performance.

Typical delivery is 2 to 4 weeks, depending on model availability and shipping destination.

**** Due to ongoing development, specifications may change at any time.**

Only trained, qualified personnel should install and operate these tools. Always keep a valid risk assessment & method statement in place before use. In addition, equip the excavator powering this item with the appropriate safety equipment and guarding.
