

Hydraulic Thumb 6,600 – 11,000 lbs (TDT5)

Description

Hydraulic Thumb 6,600 lbs – 11,000 lbs (TDT5)

The TocDem Hydraulic Thumb 6,600 lbs – 11,000 lbs (TDT5) works with compact and mid-size excavators across construction, utility installation, demolition, landscaping and material handling projects.

The TDT5 gives operators dependable gripping control when lifting, carrying and positioning irregular materials. As a result, operators can handle materials with greater control and efficiency.

For example, the TDT5 can handle concrete, timber, rocks, pipes, brush and demolition debris. It works alongside the excavator bucket to improve material handling on the jobsite. In addition, its precise geometry helps hold materials securely while supporting smooth movement throughout the thumb's working range.

The TDT5 combines high-strength, wear-resistant steel with premium hydraulic components. Therefore, it can handle demanding jobsite conditions while supporting reliable long-term performance.

What We Offer at TocDem

- 3-Year Warranty
- Technical Support Available
- Dealer Inquiries Welcome
- Professional welding and fitting required
- Typical delivery: 2 to 4 weeks

Every TocDem Hydraulic Thumb includes the following components:

- Hydraulic Thumb
- Base Plate
- Hydraulic Cylinder
- Hydraulic Hoses

Professional welding and fitting help ensure proper installation, safe operation and reliable long-term performance.

TocDem TDT5 Hydraulic Thumb Specification

Model	TD5
Suitable Excavator	6,600 lbs – 11,000 lbs
Thumb Width	8.86? (225 mm)
Thumb Length	35.43? (900 mm)
Base Plate Thickness	0.71? (18 mm)

Warranty 3 Years

Additional Highlights of Our TDT5 Hydraulic Thumb Include:

- Designed for excavators from 6,600 lbs to 11,000 lbs.
- Heavy-duty, high-strength steel construction.
- Strong gripping force for improved material handling.
- Precise geometry for secure material retention.
- Heavy-duty pivot assemblies for reliable performance.
- Low-maintenance design with greasable pivot points.
- Premium hydraulic components for long service life.
- Designed for fast, straightforward installation.
- Ideal for construction, demolition, utilities, forestry, landscaping and recycling.
- Built for demanding work environments.

All prices are subject to applicable taxes and delivery.

Why Choose TocDem Attachments?

TocDem Attachments understands the importance of quality, reliability and long-term product support. Every TocDem Hydraulic Thumb focuses on reliable operation, easy service and long-term value.

In addition, heavy-duty pivot assemblies, reinforced construction and precise geometry support smooth operation and reliable clamping during regular use.

As a result, the TDT5 gives contractors the strength they need while helping reduce maintenance and equipment downtime.

Increased Capability for Everyday Jobsite Work

The TDT5 gives contractors greater versatility from their excavator without reducing productivity.

Its larger gripping capacity makes it suitable for moving heavier rocks, larger timber, utility pipe, concrete sections and demolition materials found on commercial construction and infrastructure projects.

At the same time, its balanced strength and efficient operation help reduce manual handling. Operators also gain better control when lifting, sorting and positioning materials on the jobsite.

Engineered for Long-Term Performance

Every TocDem Hydraulic Thumb focuses on reliable operation, easy service and long-term value.

In addition, heavy-duty pivot assemblies, reinforced construction and precise geometry support smooth operation and reliable clamping during regular use.

Therefore, the TDT5 gives contractors the strength they need while helping reduce maintenance and equipment downtime.

Designed for Straightforward Installation

TocDem engineers every Hydraulic Thumb for efficient installation to help reduce machine downtime and return your excavator to work quickly.

Each package includes the hydraulic thumb, base plate, hydraulic cylinder and hydraulic hoses. However, professional welding and fitting help ensure proper installation, safe operation and reliable long-term performance.

Warranty

Every TocDem Hydraulic Thumb comes with a 3-Year Warranty. As a result, contractors gain added confidence in its long-term performance.

Delivery

Typical delivery is 2 to 4 weeks, depending on model availability and shipping destination.

**** Due to ongoing development, specifications may change at any time.**

Only trained, qualified personnel should install and operate these tools. Always keep a valid risk assessment & method statement in place before use. In addition, the excavator powering this item should have the appropriate safety equipment and guarding.
