The TocDem TGR32 Hydraulic Selector Grab provides powerful and controlled material handling for excavators weighing 77,160 lbs to 132,280 lbs. Built for demanding demolition, recycling, construction and material handling applications, it is suitable for handling concrete, brick, timber, scrap metal and other bulky or irregular materials.

Continuous hydraulic rotation gives operators precise control when gripping, sorting, positioning and loading materials. This helps improve productivity while reducing unnecessary excavator movement across demanding jobsite operations.

What We Offer at TocDem

- 3-Year Warranty
- Trade-Ins Welcome
- Technical Support
- Heavy-Duty Slew Ring
- Heavy-Duty Hydraulic Motor
- Heavy-Duty Chassis

Every TocDem Hydraulic Selector Grab is supplied ready for installation with a custom head bracket, hydraulic hoses and hydraulic couplings. Each head bracket is manufactured to match your excavator specifications for proper fitment and dependable operation.

- **Suitable Excavator:** 77,160 lbs to 132,280 lbs
- **Attachment Weight:** 6,173 lbs (2,800 kg)
- **Jaw Opening:** 98" (2,500 mm)
- **Height:** 84" (2,100 mm)
- **Width:** 59" (1,500 mm)
- **Clamping Force:** 25,300 lbs (11.5 tonnes)
- **Loading Capacity:** 6,820 lbs (3.1 tonnes)
- **Oil Flow:** 120 liters per minute
- **Oil Pressure:** 4,351 psi (300 bar)

Features

- Continuous 360° hydraulic rotation for accurate material positioning

- Synchronized hydraulic cylinder and piston rod system for smooth, consistent jaw movement
- Interchangeable blades
- Multiple jaw configurations for demolition, sorting and loading applications
- Powerful gripping force for secure material handling
- Heavy-duty construction for demanding jobsite conditions
- Precise operator control for loading and material placement
- Designed for dependable long-term performance

Included With Every TGR32 Hydraulic Selector Grab

Each TGR32 Hydraulic Selector Grab is supplied complete and ready for installation with:

- Custom Head Bracket / Hanger
- Hydraulic Hoses
- Hydraulic Couplings

The head bracket is manufactured to match your excavator specifications at the time of ordering.

Quality and Product Support

Every TocDem Hydraulic Selector Grab undergoes inspection before delivery to help ensure dependable performance and reliability.

Technical assistance is available to help customers select, install and operate the attachment correctly.

Specifications may change as part of ongoing product development.

Important Safety Information

Hydraulic Selector Grabs should only be operated by trained personnel using appropriate safety procedures and personal protective equipment.

Before operating the attachment:

- Inspect the attachment and hydraulic connections.
- Ensure the attachment is correctly installed.
- Operate within the recommended excavator capacity.
- Follow approved operating procedures.
- Keep personnel clear of the operating area.
- Stop operation immediately if abnormal hydraulic performance or attachment damage is detected.
